War

Release date: Friday, November 10, 2023

Added in: MA All in one version 0.14.0

Genre: Card games

1: Overview:

War is a classic card game where you'll engage in intense battles to conquer your opponent's card deck. It's a game of strategy and luck, and your goal is to emerge as the ultimate card champion.

2: Understanding the Cards:

- The game is played with a standard deck of 52 playing cards.
- Cards are divided into four suits: Hearts, Diamonds, Clubs, and Spades.
- Each suit contains 13 ranks: Ace, 2, 3, 4, 5, 6, 7, 8, 9, 10, Jack, Queen, King.

3: Card Ranks:

- The ranks are ordered from the lowest to the highest: Ace (1), 2, 3, 4, 5, 6, 7, 8, 9, 10, Jack, Queen, King.
- In each round, the card with the higher rank wins.

4: How to Play:

- To play a card, press Enter.
- Use the Up and Down arrow keys to select a card from your hand.
- In each round, you'll go head-to-head with the computer.

5: Game Rules:

- The game is played in rounds.
- In each round, both players play one card.
- The player with the card of the highest rank wins the round.
- The winner of each round takes both cards played in that round.

5.1: War:

- If both players play cards of the same rank, it's a 'War.'
- During a War, three additional cards are played face down.
- After the War, the player with the highest-ranked fourth card wins all the cards from the round.

6: Winning the Game:

- You win the game by collecting all the cards.
- The player with the most cards at the end of the game is declared the winner.

7: Tips:

- Pay attention to your card's rank and use strategy to win rounds.
- Be cautious of Wars, as they can dramatically change the game's outcome.
- Try to outsmart your opponent and collect their cards.

8: Controls:

- Enter: Play a card.
- Up and Down Arrows: Navigate your hand.
- Escape: Quit the game.

Now that you're familiar with the rules and strategies, embark on this thrilling card battle and become the War Game master! If you need help, press F1 at any time.

Daily life

Release date: Sunday, September 08, 2019

Current version: 2.19

On September 3, 2019, a thought struck me: after creating four or five games, why not endeavor to develop the ultimate game? But what did I mean by “ultimate”? Simply put, I envisioned a game that encapsulated all the elements I desired in a single, cohesive experience.

After some contemplation and research, I settled on a name: “The Criminal.” On September 8th, 2019, I released the first version. However, as iterations progressed, I realized the potential for transforming it into an online multiplayer experience.

In Version 0.14, a new challenge arose: finding a more fitting and evocative name. Thus, “Smart Killer” was born.

Version 0.2 saw the game transition into a fully-fledged online 2D experience under the moniker “Smart Killer.” However, I didn’t stop there. In Version 0.3, I took the game to new heights by introducing 3D graphics and intricate gameplay mechanics, prompting a name change to “Daily Life.” Daily Life is not just another game; it’s an FPS (First-Person Shooter) and life simulator, blurring the lines between virtual and real experiences. Here are some of its standout features:

- Play with either mouse or joystick support.
- Construct intricate maps and environments.
- Satisfy your thirst with water from various sources using glasses and cups.

- Indulge in a variety of foods, from fast foods to seafood.
- Engage in combat using a diverse array of weapons and combos.
- Choose from a range of professions, including shopkeeping by having your own store.
- Establish your own home by purchasing items such as tents, conexes, bases, partner houses, and customize it by building maps and design it with items such as air conditioners, fans, microwaves, fridges, heaters, chopping boards, chairs, trash cans, shovels, and wardrobes.
- Cultivate honeybees in your personal beehives for a steady supply of honey, while also maintaining aviaries for chickens and roosters to lay eggs.
- Traverse the world using bikes, boats, motorcycles, and other vehicles.
- Experiment with item combinations to create new and useful tools.
- Communicate with others through text-to-speech and voice chat.
- Safeguard your belongings using secure storage options like banks, fridges, and lockers.
- Partake in hunting, skinning, gutting, and cooking animals for sustenance.

And this is just the beginning! With "Daily Life," the possibilities are endless, offering a truly immersive and dynamic gaming experience unlike any other.
